

Lead Poisoning Home Checklist

The following questions will help you determine if your family is at risk for lead poisoning.

If yes, ✓

- _____ 1. Does your child live in or often visit a house, daycare, preschool, home of a relative, etc. built before 1950?
- _____ 2. Does your child live in or often visit a house built before 1950 that has been remodeled within the last year?
- _____ 3. Does your child have a brother, sister, or playmate with lead poisoning?
- _____ 4. Does your child live with an adult whose job or hobby involves lead?
- _____ 5. Does your family use any home remedies or cultural practices that may contain or use lead?
- _____ 6. Is your child included in a special population group, i.e., foreign adoptee, refugee, migrant, immigrant, or foster care child?

If you have answered yes to any of these questions, have your home tested by a certified professional. Call 1-800-424-LEAD (5323) or visit www.epa.gov/lead to find a professional near you. If you rent, check with your landlord if your home has been tested for lead.
